

THE SRI LANKAN WEDDING PLANNER · 2027 EDITION

Poruwa Planner

Plan your wedding like a beautiful celebration — and
manage it like the investment it is.

ඔබේ මහල, සැලසුමෙන් සුන්දරයි

One calm place for everything your wedding needs.

A Sri Lankan wedding has hundreds of moving parts: the nekath, the Poruwa, two families' guest lists, a dozen vendors, and a budget that grows quietly. Poruwa Planner brings it all together and tells you, every day, what needs you next.

01

Plan

A dated A-Z checklist built from real Sri Lankan weddings — from booking the venue to the going-away car — that moves when your date moves.

02

Invest

See what you have committed, paid and still owe in LKR. Compare vendor quotes by their true cost, not just the package price.

03

Experience

Walk through your day before it happens, then run it live with Wedding Day Mode — every moment, vendor and payment on one screen.

86

ready-made tasks, dated to your wedding day

21

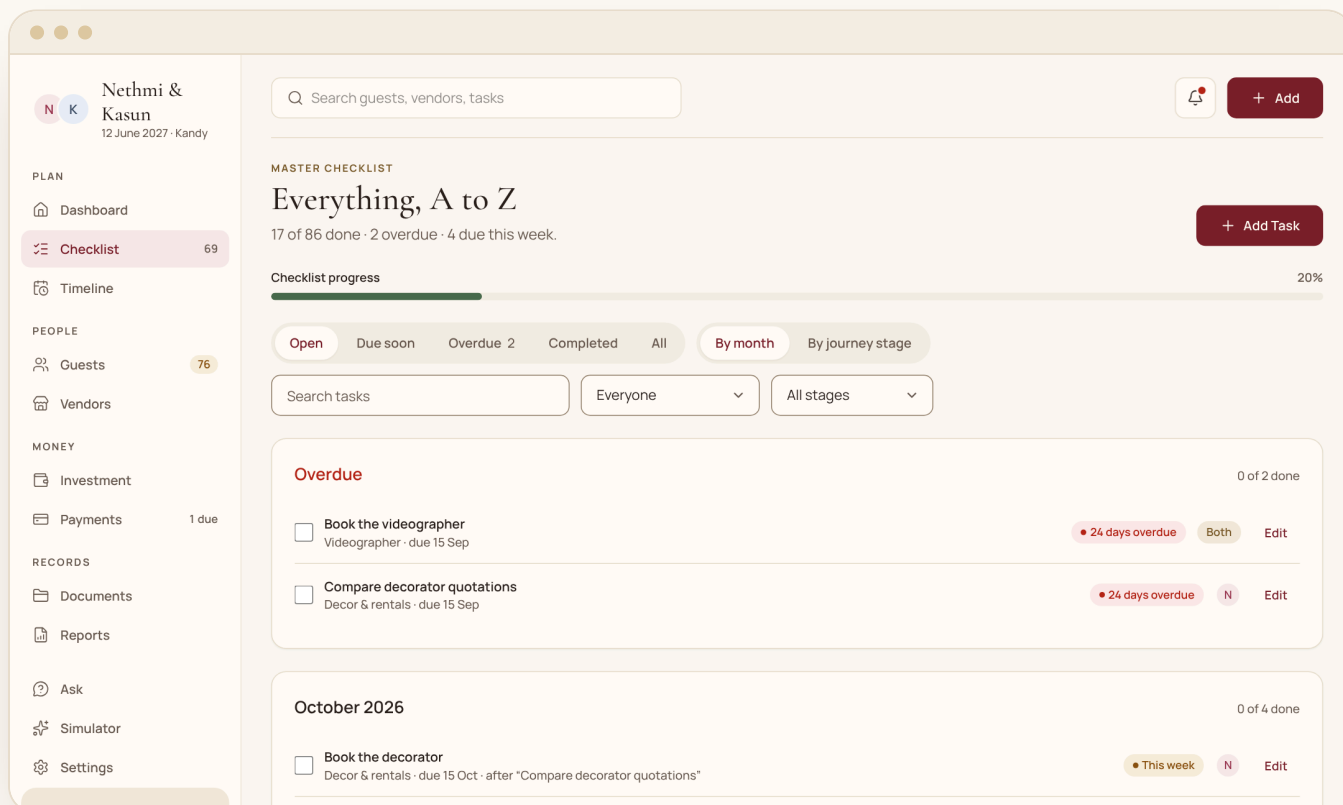

budget categories with planned, quoted and final amounts

14

scenes in the wedding-day simulator

LKR

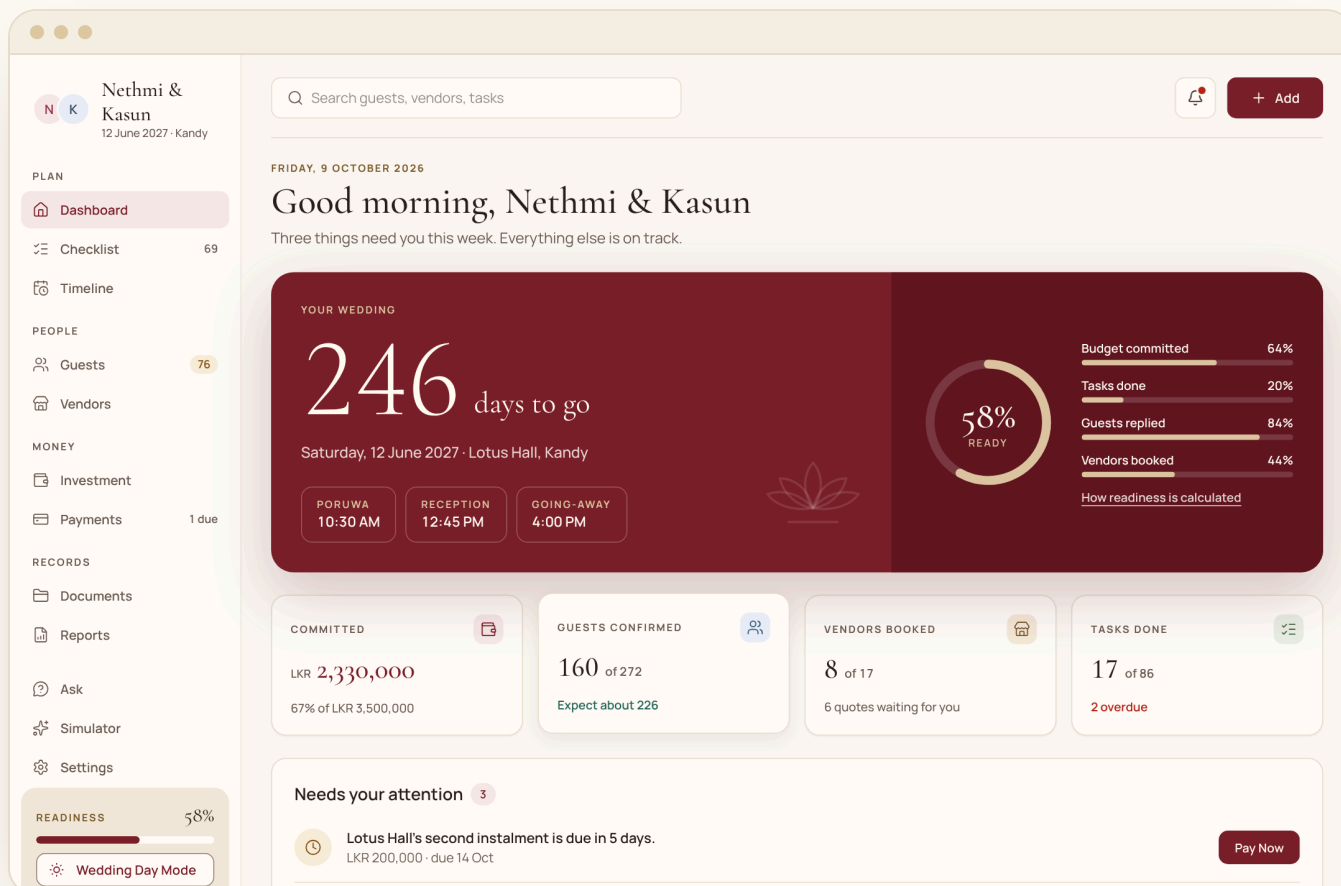

everything in rupees, no conversions

YOUR DASHBOARD

Know exactly where you stand.

Open the app and see the countdown, your readiness score, and the three things that need you this week. Everything else waits quietly until it matters.

MASTER CHECKLIST

The A–Z of a Sri Lankan wedding

Nekath, Poruwa and Ashtaka, Jayamangala Gatha, registration, Kandyan drummers, the going-away and thank-you notes – every task is dated backwards from your wedding day and assigned to bride, groom or family.

- ✓ Overdue and catch-up tasks shown clearly
- ✓ Change the date and every open task moves with it
- ✓ Link tasks to vendors, costs and documents

*“Three things need you this week.
Everything else is on track.”*

What your dashboard says when the plan is under control.

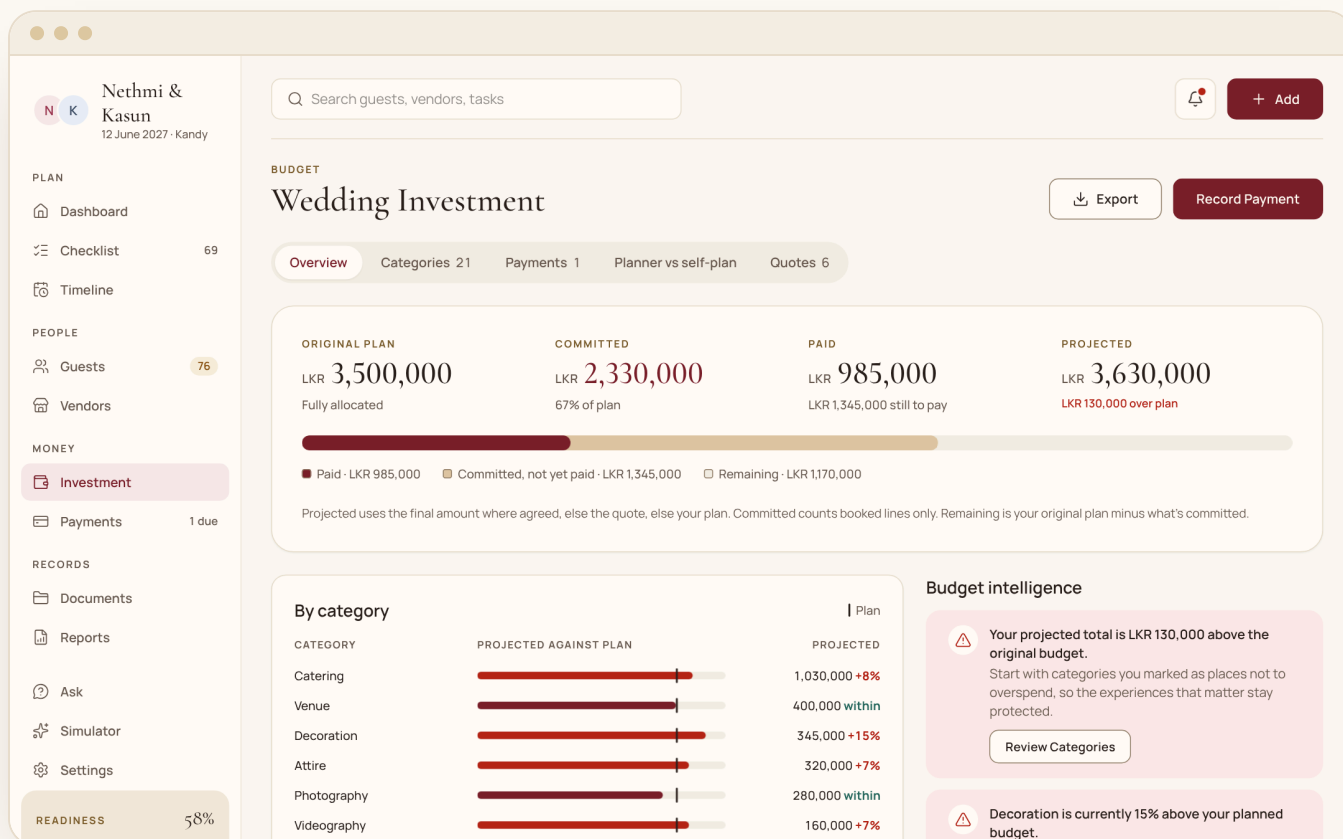

READINESS

58%

Budget, guests, vendors, ceremony, invitations and the wedding day – each scored, each explained, so you always know why.

Every rupee, accounted for.

Your budget split into committed, paid and projected – with early warnings when a category runs over, and a planner-versus-self-plan comparison to see what a planner would really cost.

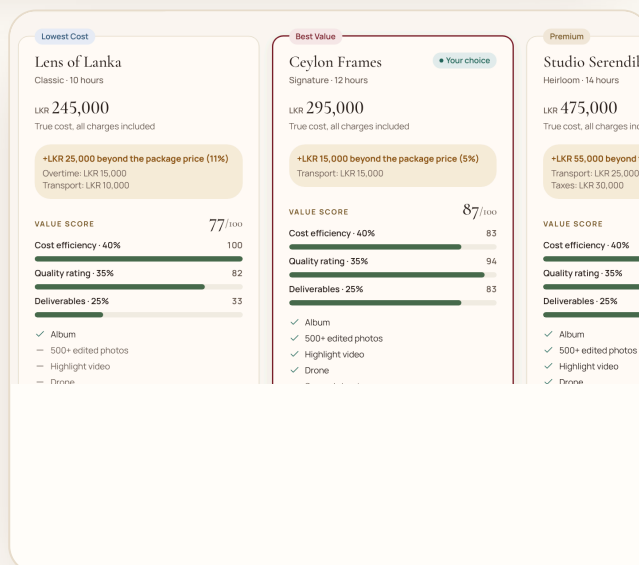

QUOTE COMPARISON

See the true cost before you sign

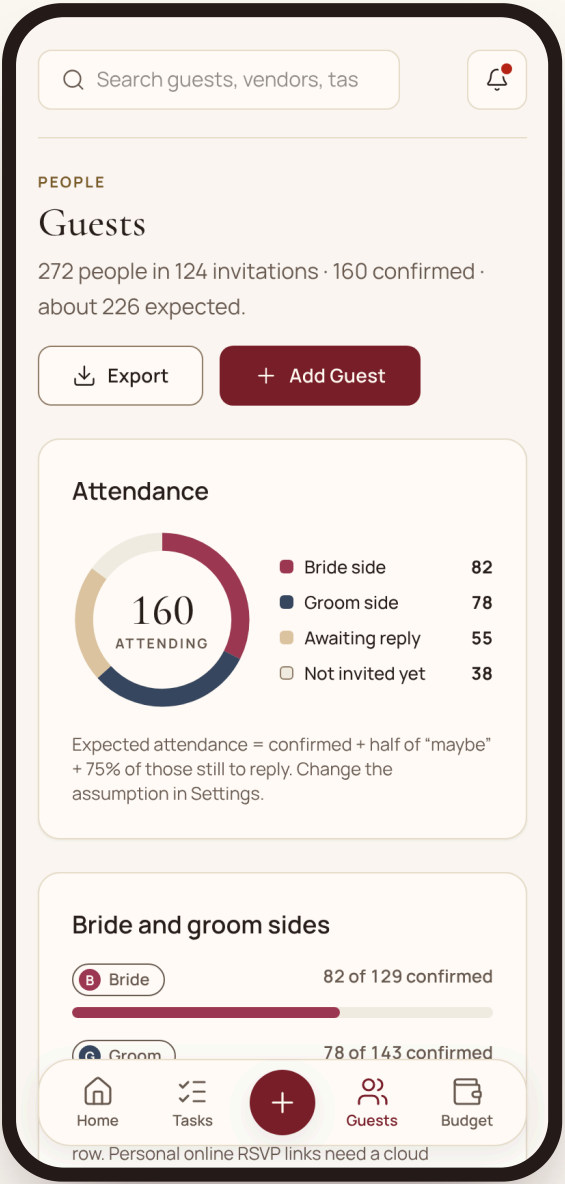

Overtime, transport and taxes are added to every quote. A Value Score – 40% cost, 35% quality, 25% what's included – shows the best value, not just the cheapest.

- ✓ Payment schedules with due-date reminders
- ✓ Mark payments paid in one tap
- ✓ Export to Excel or print as PDF

Both families, one guest list.

Bride's side and groom's side, adults and children, veg and non-veg. Send invitations on WhatsApp and let guests reply from their own phone with a private RSVP link.

- ### WhatsApp invitations

A ready-written message for each party, opened straight in WhatsApp with their number.
- ### Online RSVP

Every guest gets a private link. They choose attending, how many, and meal preference — your list updates by itself.
- ### Expected attendance

Confirmed guests, plus half of the maybes, plus a fair share of those still to reply — so you can give the caterer a real number.
- ### Tables and meals

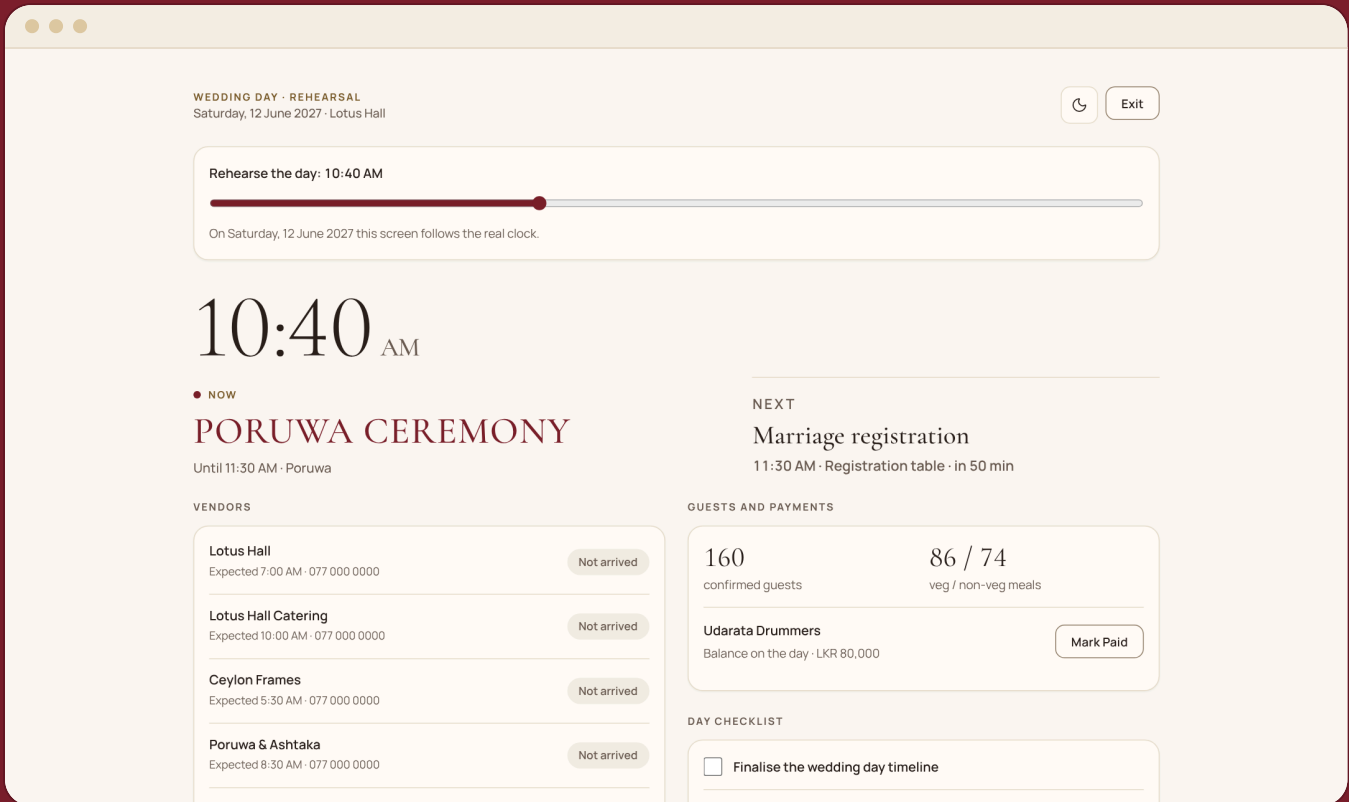

Seat parties at tables and see veg / non-veg counts on the day.

272	124	160	≈226
people in the sample wedding	invitations, one per family or party	confirmed — bride's and groom's side	expected on the day, for the caterer

WEDDING DAY MODE

On the day, just follow the screen.

What's happening now, what's next, which vendors have arrived, and who still needs to be paid. On your wedding day it follows the real clock – before that, rehearse the whole day with a slider.

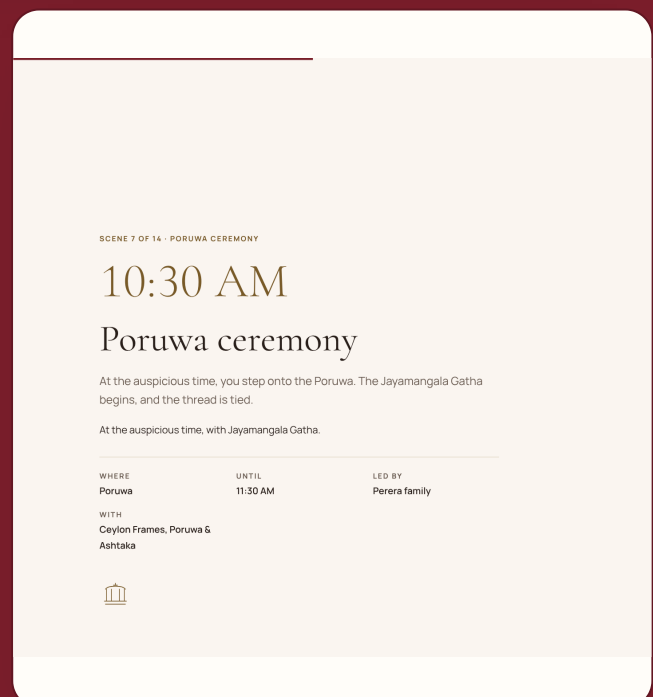

EXPERIENCE YOUR WEDDING

Walk through the day before it happens

From getting ready to the going-away, scroll through your own day scene by scene – the times, the place, the people and the vendors for each moment.

- ✓ Poruwa, registration, reception, going-away
- ✓ Spot gaps and clashes in the schedule early
- ✓ Share it with family so everyone knows their part

AND MUCH MORE

Everything in one place.

Document vault

Contracts, quotations and receipts, linked to the vendor and payment they belong to.

Reports

Budget, guests, vendors, payments and tasks — print as PDF or download as Excel.

Family sharing

Invite your partner, parents and planner. Choose who can edit and who can only view.

Ask about your wedding

“Can we afford the drummers?”
“What should we book next?”
Answers from your own plan.

Works on your phone

Add it to your home screen like an app. Your plan stays available even without a signal.

Private and secure

Only the people you invite can see your wedding. Guests only ever see their own invitation.

HOW IT WORKS

Ready in five minutes.

1

Create your account

Sign up with your email and a password.

2

Tell us about the day

Names, date, venue, guest count and budget.

3

Get your plan

Your checklist, budget and timeline are created for you.

4

Invite the family

Plan together, from any phone or computer.

MADE FOR SRI LANKAN WEDDINGS

Do I need to install anything?

No. Open the website on any phone or computer, and add it to your home screen if you like.

Can both families use it?

Yes. Invite your partner, parents and planner by email. Each person signs in with their own account.

Is our information private?

Only people you invite can see your wedding. Guests see only their own invitation.

Start planning today.
